

Join Chris' Can-do Crew Today!

Dear member,

One of my most meaningful experiences so far this year has been attending Quota's six area meetings. I am so impressed with all of the fantastic work that you and other Quota members are doing. It was my pleasure to share with those who attended the meetings a very important message about Quota's future structure and governance system. I also enjoyed having the chance to get to know so many members better and all the amazing programs that clubs worldwide provide. Working together, Quota members make a huge impact: dedicated people sharing a goal and working together as a team. It's that team approach that inspired me to form this year's president's team – I am calling it **Chris' Can-do Crew!** I am thrilled to be at the helm of our "Quota Crew" at this milestone point in Quota's history and I invite you to join me in this venture!

You have certainly demonstrated your own "can-do" attitude for Quota's future through the giving of your time, talents, and resources to our precious organization. For all you have done and all you will do, I am extremely grateful. As you know, for the past 18 months, we have been Creating the Quota of Tomorrow in order to remain a relevant and viable voice in the world of service, and generous donations have helped us achieve the gains we celebrate today: the launching of a spectacular new Web site, the expansion of award-winning international initiatives including Quota World Service; the creation of a wealth of new club publicity, service, and membership resources and tools; and an outreach program to young people, so they, too, will know the joy of being a member of the Quota team.

Our work in securing Quota's future, however, is not over, nor is our need for donations to help fund this effort. Having just completed a year-long program of amazing accomplishments, including our tremendously successful listening tours, we are now implementing increased efforts to reach out to others to participate in Quota and to translate lessons learned into action. How? Through our GIVE ME FIVE program, our Branching Out program, our World Service public awareness campaign and our JQ (Junior Quota Club) campaign. In the year ahead, I am counting on each of you to "team-up" and contribute in your own special way. One of those ways is through financial support for these programs.

Please consider this a personal invitation to support Quota's future progress by joining a select group of Quota donors—Chris' Can-do Crew. Your donation will help us create the Quota experience current, new, and future generations of Quotarians seek.
